The **Fleuroselect Gold Medal** is awarded to varieties that demonstrate absolute excellence in ornamental breeding. The Fleuroselect trials are judged by a team of independent experts who score entries according to breeding innovation, beauty, quality and performance. Varieties that clearly surpass any existing variety are awarded the **Gold Medal**, and proudly promoted by Fleuroselect.

Detailed information on each of these varieties is available on:
www.fleuroselect.com
in several European languages.

The complete list of Gold Medal winning varieties from Fleuroselect's 40-year history can also be found on the website, together with a wealth of information about the organisation and its activities and services for the Ornamentals Industry.
