PRINCESSE CHARLENE DE MONACO® Meidysouk

During the event of the inauguration of the new Princess Grace Rose Garden, I'm honored to dedicate this new Rose, already awarded with three International Perfume Prices and a Gold Medal at the Geneva International trial of New Roses to the Princess Charlene de Monaco.

This is a remarkable rose, wonderful for gardens and magical in the hands of floral designers.

The flowers are fresh and beautiful, of a slightly ochre tint ; modern, incredibly charming. A festival pastels pink delicately scented. Surrounded, in this magical place, by roses already dedicated to the Grimaldi family, most of which were created and selected by Meilland, it will be a delight to people of Monaco and visitors of all countries .
