

EconSeeds BV

EconSeeds BV acquires Graines BERTRAND from Graines Voltz

Monday, 3rd October 2016

Dear Sir, Madam,

EconSeeds BV has the pleasure to announce the recent acquisition of Graines Bertrand, leading flower seed production company in the Anjou region in France.

Graines Bertrand, internationally renowned producer of flower seeds since 1947:

A business based in Angers, France, very much focussed on «made in France» for over 70 years, with a team of reliable and knowledgeable employees.

The Graines Bertrand product range consists of two sections:

- high quality individual flower seed species;
- flower seed mixtures for specific areas and conditions, see www.grainesbertrand.fr

EconSeeds BV, operational since July 2008, is an independent company specialised in the production and wholesale of flower seeds, as well as in contract production of vegetable seeds. In these past years the focus has been more and more on the production of high quality flower seeds in order to meet the increasing quality exigencies of the seed industry.

This acquisition completes EconSeeds' last year's installation of seed production facilities in the Anjou for flower seeds and contract production of vegetable seeds, in addition to the existing seed productions a.o. in The Netherlands.

The association of EconSeeds BV and Graines Bertrand combines our respective skills in order to strengthen our position in the flower seed industry and to consolidate our presence in the professional market.

The customers of Bertrand will keep their usual contact persons:

Charly Rousseau, Sales Manager Graines Bertrand
+33 6 89 62 71 33 - crousseau@econseeds.com

Johann Moreau, Production Manager Graines Bertrand
+33 6 88 99 16 65 - jmoreau@econseeds.com

Hans Veenstra
